

### Phoropter and Slit Lamp Shields

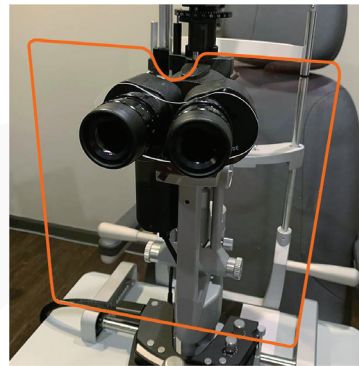

This protective shield was designed to easily slip onto most Slit Lamps and Phoropters, creating an additional breath barrier between doctor and patient, while not interfering with the use of the phoropter, or touching the nose of the patient, even when the PD is adjusted.

A rigid, yet flexible, 20-30mil polycarbonate composition allows for easy installation and removal for cleaning. Polycarbonate can be cleaned with most disinfectants, as well as warm soap and water, to sanitize between patients.

Model # APH015

Model # ASLS015

**PRICING - per unit\***

\$30.00

\* Applicable taxes and delivery extra.

Disclaimer: These shields do not guarantee protection against COVID-19. However, they are medical grade quality and intended for use by Optometrists. Please use responsibly.

**It's about keeping everyone safe.**
