igniting ideas in print

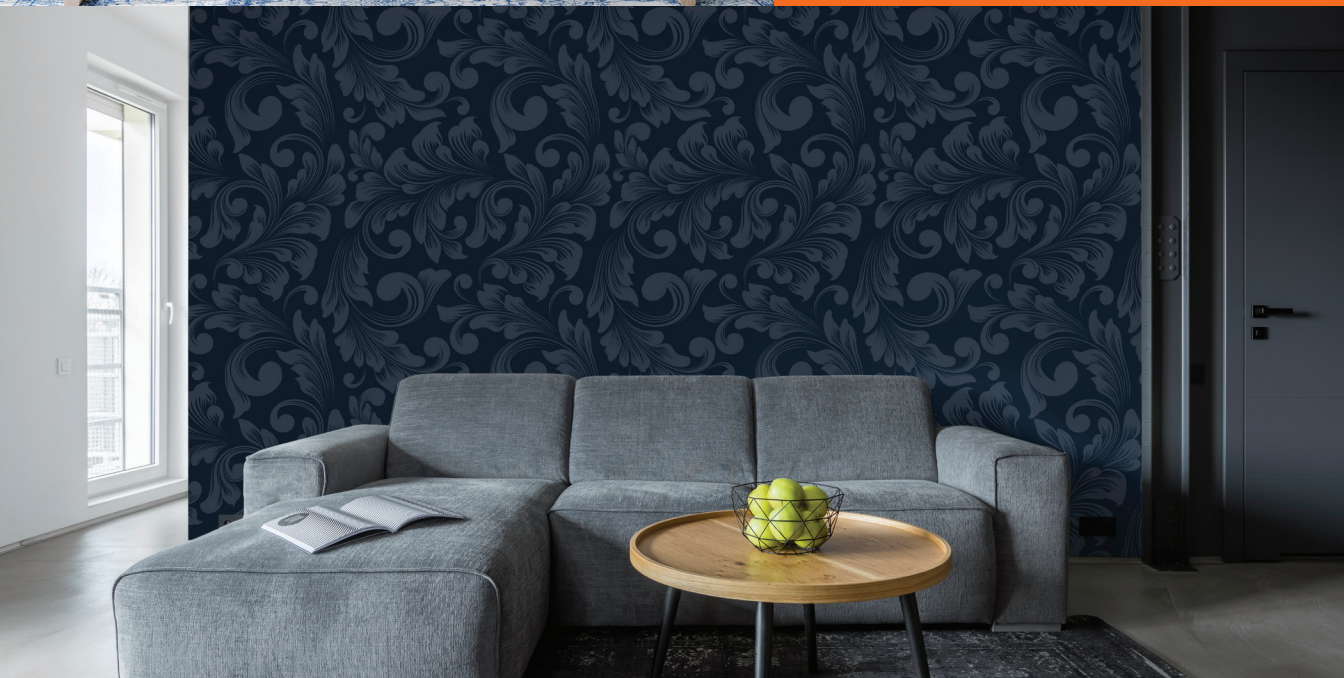

Paint is ubiquitous, but custom wallcoverings elevate your space into amazing. From commercial spaces such as reception areas and boardrooms, to residential spaces, AG custom wallcoverings are creative as you. Any design, pattern, illustration or photographic image can be expertly reproduced on a material of your choice. Leave the installation to our experts.

Amazing doesn't have to be complicated.

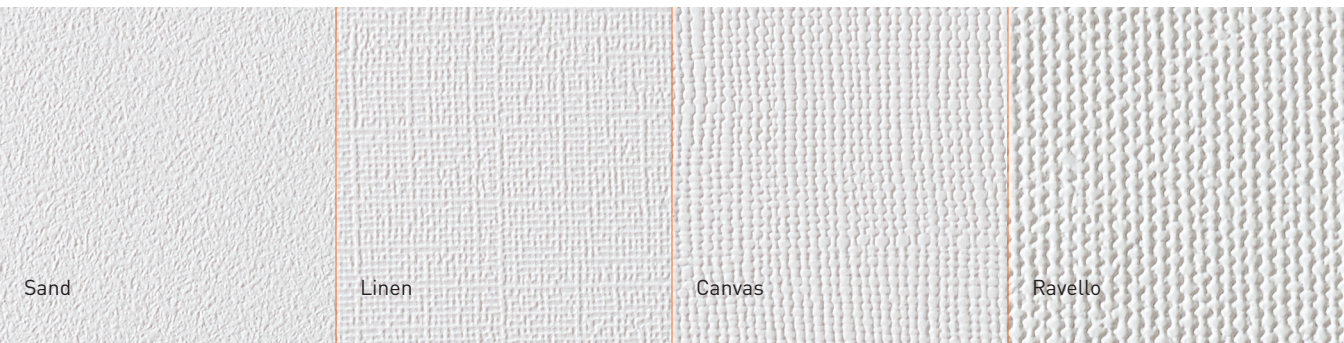

**Accent walls
complement
minimalist
designs with
patterns and
textures of
your choice.**

Perfect for any commercial enterprise looking for customizing its space with inviting and fun graphics. Durable, easy to maintain and creative solutions at your request. Clients include corporate office space, boardrooms, restaurants and bars, and community centres.

Interior designers love the versatility

of the coverings that add panache to any room. With a 20 different materials colours and textures - from a sparkly 'bling' covering to an elegant white linen, AG has you covered.

A child's room gets an imaginative wallcovering ...

with koalas napping and an elephant going on a trip, the room truly becomes a child's playground.

This and that ...

- Materials are sourced from leading Canadian and US manufacturers.
- Embossed finishes add depth and visual appeal to static, flat graphics.
- Available in 20 different materials and textures. Samples available.
- Wallcoverings are easily removed and re-positioned multiple times unlike traditional wallpaper.
- Pricing available upon request. There is a minimum order due to material roll size.
- Deliveries and installations handled by experienced AG staff.
